

# Teacher Report – Wombat and Possum

August 2020

What a peculiar month we had!

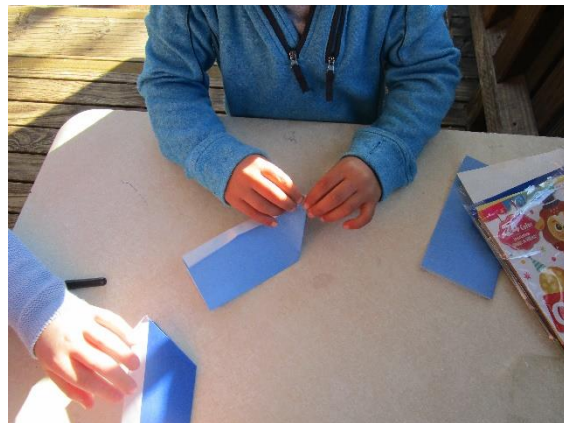

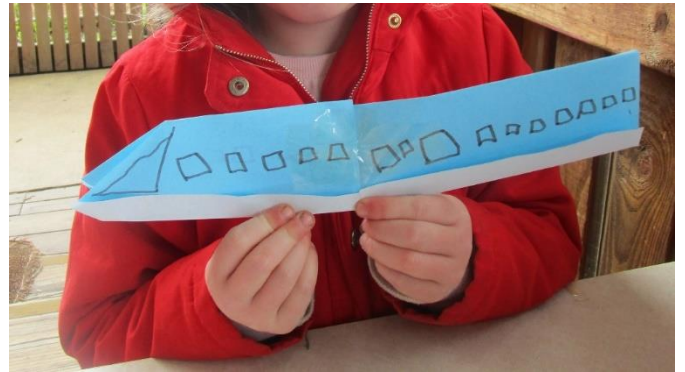

During the time we were lucky to be at home kinder, the children had the chance to explore art experiences using a range of different media.

They experimented free painting, still nature painting, free creations with clay and pinch techniques with clay.

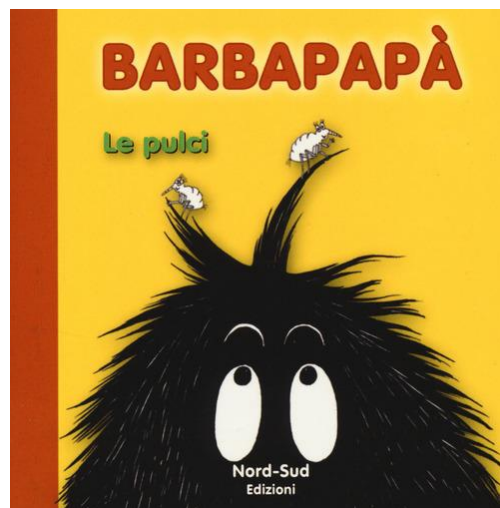

Please look at the pictures, you can appreciate the children's ability to capture the essence of the plant in the still nature painting and the creativity of their free painting. Please try to extend their experiences at home inviting your child to copy some fruit, plants that you put on the table or in a basket to challenge their artistic ability and their observation skills.

During our travelling around different countries we visited Japan. We learned about ninjas, we sang a very engaging song with Yukie (that is now uploaded on Kinderloop) and we learned about bullet trains in Japan and made some origami trains.

We keep exploring Italian language through songs, games and we have been reading some books in Italian. One of the children's favourite books was *Le Pulci* by Annette Tison and Talus Taylor. The children were invited to make their contributions to the story and were fascinated by the characters and the illustrations in the book.

Now the program has moved to home learning and the kinder will reopen for a very small number of children that require on site kinder. Please find attached the skeleton of home learning program for the current lockdown.
